The matter was presented on behalf of the would-be immigrants to the Japanese minister, and he advised them that the course of the United States authorities was in accord with the agreement between the two countries, and hence satisfactory to his government. When they represented that they had been compelled to come to the United States in search of food, he advised them to apply to the Japanese minister to Mexico for relief. Commissioner Sargent had been advised that about 500 Japanese laborers have recently left El Paso, golsk both east and west, and it is expected that they will try to find admission into the United States at unavarded points along the international line. the United States at unguarded points along the international line.
